Big Bag Filler

THE FILLING PLANT FOR BIG BAGS AND OCTABINS

Big Bag Filler

THE FILLING PLANT FOR BIG BAGS AND OCTABINS

Our Big Bag filling scales enable you to outsource filling services on calibrated Big Bag scales from storage silos, bags or barrels. In this way we offer you short-term usable and flexible filling capacities as a replacement for or an extension of your own filling plants.

Technical data

- › Sizes of Big Bags: 0.5 – 2.5 m³
- › Weight ranges: 50 – 1,500 kg
- › Product-contacting parts: in stainless steel
- › Charging: from 100 m³ silos, from palletted bagged goods and barrels
- › Number of filling lines: 4

Refilling facility with integrated safety screening
